

Al Fresco Series & PatioFire Collection  
Outdoor Fireplaces & PatioFire

Turn your outdoor  
gathering place into  
a showplace

# Al Fresco Series

## It's the perfect addition to any outdoor room.

Whenever there's a chill in the air or whenever you want to make your gathering something to remember, treat your guests to the spectacular warmth and elegance of a Majestic outdoor fireplace. Our outdoor fireplaces feature expansive firebox openings, stainless steel construction, and the quality construction you'd expect from Majestic. Available in both wood and gas models, you can add the ambiance of a fireplace almost anywhere – from a city rooftop to a suburban backyard retreat.

### Features and Benefits

- Choice of 5 all stainless steel outdoor fireplaces that feature stainless steel mesh screen, basket grate and concrete brick firebox lining.
- ODGSR36A and ODGSR42A are fully insulated radiant gas fireplace models in 36" and 42" size and include:
  - Flex line with cut off pre-installed.
  - Weather resistant Insta-Flame gas burner system and logs.
  - 60,000 btu's provides superior warmth on chilly nights.
- No venting required on gas models means installation flexibility - gas models can be installed virtually anywhere allowable by local building code.
- ODSR36A, ODSR42A and ODSHR42 are fully insulated radiant wood burning fireplace models in 36" and 42" size with built-in flue damper and gas line knock-out.
- Wood models utilize SK8 Majestic venting OR CF11.
- Chimney height may be as low as 6 ft 4" if Alfresco wood fireplace is installed as a free standing model at least 10 ft. from any combustible structure.

### Optional for Al Fresco outdoor fireplaces:

- Bi-fold doors glass doors are available in weather-resistant stainless steel.
- Outside air kit, termination kit or chimney reduction kit for wood burning models
- Weather cover for gas logs/burner.
